Mizuho Corporate Bank

We are serving major corporations (such as those listed on the first section of domestic stock exchanges) and their group companies, financial institutions, public sector entities, and Japanese and foreign companies overseas.

We are collaborating with group companies to strengthen and combine commercial banking and traditional investment banking, including M&A advisory services, and the underwriting of bonds and equities, as well as sales and trading activities. This is enabling us to take our place as a “top corporate finance provider” and offer optimal global financial solutions that meet the needs of our customers in Japan and overseas.

Our overseas strategy is to fully utilize our overseas network, which comprises 68 offices located in 30 countries and regions, to meet the needs not only of Japanese corporations but also non-Japanese companies in a timely manner. Especially in Asia, we now have 33 offices outside Japan, and we will continue to strengthen our network in the years ahead.

By mobilizing our knowledge and understanding of industries and all of our capabilities, we aim to be the financial institution as the “best possible partner” to work with our customers in implementing their strategies and to fulfill our social mission as a supplier of global industrial finance to facilitate the development of corporations and industries.

Working in cooperation with group companies, we offer comprehensive financial services primarily to SMEs and middle-market corporations and their owners, as well as individuals.

To satisfy customers throughout their lives, we apply a consulting-style approach in offering membership-based services, asset management products, loan products, and other services appropriate for each customer's life stage and needs. In addition, through the establishment of joint branches with Mizuho Trust & Banking and Mizuho Investors Securities, we are offering diversified services while enhancing customer convenience.

At the same time, we develop various types of products to meet a broad range of corporate customers' financing needs and actively engage in disaster recovery support and consulting on business matching, business inheritance, overseas business development, and other core management matters.

We would like to take this opportunity to reiterate our deepest apologies to all of our customers who have experienced inconvenience caused by the computer system failures of Mizuho Bank in March of last year. With a strong resolution to prevent its recurrence, we are implementing countermeasures regarding system functions to our fullest.

By putting our “customer first policy” into action throughout our business, every member of the management and all officers and employees will work together as one and focus on relentlessly challenging for change and speedy results aiming to become the “most trusted financial institution.”
