#### Changes in Accounting Policies

MHFG has applied "Leases" (IFRS 16 and ASU 2016-02) at some consolidated subsidiaries from this interim period ended September 30, 2019. Accordingly, lessees recognize assets and liabilities for all leases as a general rule.

In accordance with transitional treatment, MHFG has recognized the impact of this accounting standard cumulatively as of the date of adoption for balances at the beginning of the interim period ended September 30, 2019.

The impact on the interim consolidated financial statements for the interim period ended September 30, 2019 is immaterial.

• In addition to "Securities" on the consolidated balance sheets, NCDs in "Cash and Due from Banks," certain items in "Other Debt Purchased" and certain items in "Other Assets" are also included. • Fair value of Japanese stocks with a quoted market price is determined based on the average quoted market price over the month preceding the consolidated balance sheet date.

Fair value of securities other than Japanese stocks is determined at the quoted market price if available, or other reasonable value, at the consolidated balance sheet date.

• The book values of Other Securities which have readily determinable fair value are stated at fair value, so Unrealized Gains/Losses indicate the difference between book values on the consolidated balance sheets and the acquisition costs.

• Unrealized Gains/Losses include ¥27,601 million and ¥38,000 million, which were recognized in the statement of income for September 30, 2019 and March 31, 2019, respectively, by applying the fair-value hedge method. As a result, the base amounts to be recorded directly to Net Assets after tax and consolidation adjustments as of September 30, 2019 and March 31, 2019 are ¥1,499,494 million and ¥1,651,865 million, respectively.

• Unrealized Gains (Losses) on Other Securities, net of Taxes (recorded directly to Net Assets after tax and consolidation adjustments, excluding the amount recognized in the statement of income by applying the fair-value hedge method, including translation differences regarding securities, the fair values of which are extremely difficult to determine) as of September 30, 2019 and March 31, 2019 are ¥1,066,749 million and ¥1,186,401 million, respectively.
