1. Matters Related to Summary Information (Notes)

(1) Changes in Accounting Policies and Accounting Estimates / Restatements

(Changes in Accounting Policies)

(Accounting Standard for Fair Value Measurement and Others)

MHFG has applied "Accounting Standard for Fair Value Measurement" (ASBJ Statement No.30 July 4, 2019) and others from the beginning of the interim period ended September 30, 2020.

In accordance with Article 8 of "Accounting Standard for Fair Value Measurement", the fair value adjustment method used to determine the fair value of derivatives is revised to maximize the use of relevant observable inputs estimated from derivatives and others traded in the market.

In accordance with Article 20 of "Accounting Standard for Fair Value Measurement", the cumulative effects arising from the retroactive application of these new accounting policies to all the previous fiscal years were reflected in Retained Earnings as of April 1, 2020.

As a result, Retained Earnings decreased by \$32,639 million, Trading Assets decreased by \$50,380 million, Derivatives other than for Trading Assets decreased by \$6,379 million, Trading Liabilities decreased by \$6,529 million, Derivatives other than for Trading Liabilities decreased by \$3,184 million, Deferred Tax Assets increased by \$14,405 million, and Net Assets per Share decreased by \$12.87 as of April 1, 2020. The share consolidation was taken place at a ratio of ten pre-consolidation shares to one post-consolidation share on October 1, 2020. Net Asset per share is calculated under the assumption that the share consolidation had been taken place at the beginning of fiscal 2019.

And in accordance with the transitional treatment set forth in Article 19 of "Accounting Standard for Fair Value Measurement" and Article 44-2 of "Accounting Standard for Financial Instruments" (ASBJ Statement No. 10, July 4, 2019), MHFG has applied a new accounting policy prescribed by "Accounting Standard for Fair Value Measurement" and others from the interim period ended September 30, 2020.

As a result, in principle, while fair value of Japanese stocks was previously determined based on the average quoted market price over the month preceding the interim consolidated balance sheet date, from the end of the interim period ended September 30, 2020, fair value of Japanese stocks is determined based on the quoted market price as of the interim consolidated balance sheet date.

• In addition to "Securities" on the consolidated balance sheets, NCDs in "Cash and Due from Banks," certain items in "Other Debt Purchased" and certain items in "Other Assets" are also included. • As of September 30, 2020, fair value of securities is determined at the quoted market price if available, or other reasonable value at the consolidated balance sheet date.

As of March 31, 2020, fair value of Japanese stocks with a quoted market price is determined based on the average quoted market price over the month preceding the consolidated balance sheet date. Fair value of securities other than Japanese stocks is determined at the quoted market price if available, or other reasonable value at the consolidated balance sheet date.

The book values of Other Securities which have readily determinable fair value are stated at fair value, so Unrealized Gains/Losses indicate the difference between book values on the consolidated balance sheets and the acquisition costs.

• Unrealized Gains/Losses include ¥(1,301) million and ¥(5,191) million, which were recognized in the statement of income for September 30, 2020 and March 31, 2020, respectively, by applying the fair-value hedge method. As a result, the base amounts to be recorded directly to Net Assets after tax and consolidation adjustments as of September 30, 2020 and March 31, 2020 are ¥1,462,843 million and ¥1,176,337 million, respectively.

Unrealized Gains (Losses) on Other Securities, net of Taxes (recorded directly to Net Assets after tax and consolidation adjustments, excluding the amount recognized in the statement of income by
applying the fair-value hedge method, including translation differences and others regarding stocks and others without a quoted market price and Investments in Partnerships) as of September 30,
2020 and March 31, 2020 are ¥1,038,781 million and ¥823,085 million, respectively.

• In addition to "Securities" on the balance sheets, NCDs in "Cash and Due from Banks" and certain items in "Other Debt Purchased" are also included.

• As of September 30, 2020, fair value of securities is determined at the quoted market price if available, or other reasonable value at the consolidated balance sheet date.

As of March 31, 2020, fair value of Japanese stocks with a quoted market price is determined based on the average quoted market price over the month preceding the consolidated balance sheet date. Fair value of securities other than Japanese stocks is determined at the quoted market price if available, or other reasonable value at the consolidated balance sheet date.

• The book values of Other Securities which have readily determinable fair value are stated at fair value, so Unrealized Gains/Losses indicate the difference between book values on the balance sheets and the acquisition costs.

• Unrealized Gains/Losses include ¥(1,301) million and ¥(5,191) million, which were recognized in the statement of income (aggregate figures for the 2 banks) for September 30, 2020 and March 31, 2020, respectively, by applying the fair-value hedge method. As a result, the base amounts to be recorded directly to Net Assets after tax adjustment (aggregate figures for the 2 banks) as of September 30, 2020 and March 31, 2020 are ¥1,392,325 million and ¥1,102,255 million, respectively.

• Unrealized Gains (Losses) on Other Securities, net of Taxes (recorded directly to Net Assets after tax adjustment, excluding the amount recognized in the statement of income by applying the fairvalue hedge method including translation differences and others regarding stocks and others without a quoted market price and Investments in Partnerships) as of September 30, 2020 and March 31, 2020 are as follows:

Unrealized Gains/Losses on Other Securities

(the base amount to be recorded directly to Net Assets after tax and other necessary adjustments)

For certain Other Securities, Unrealized Gains/Losses were recognized in the statement of income by applying the fair-value hedge method. Unrealized Gains/Losses on Other Securities after excluding such Income/Loss (the "base amount") are recorded directly to Net Assets after tax and other necessary adjustments.

The base amounts are as follows:
